EDUCATION

University at Buffalo, The State University of New York

Jun. 2025

Master of Science, Management in Information System (STEM)

Database Management System • Data Visualization • Data Engineering • Statistics • Predictive Analytics • Cloud Computing • Data Warehousing • Machine Learning • Digital Marketing Analytics • Large Language Model • System Analysis and Design

Vellore Institute of Technology, VIT University

July 2016 -June 2020

Bachelor of Engineering, Electrical and Electronics Engineering

Semiconductors • Data Structures Algorithms • Object Oriented Programming • VLSI Design • Control Systems • Circuit Design

PROFESSIONAL EXPERIENCE

Data Analyst Intern | MMS LLC, Experiential IT | University at Buffalo

Jan. 2025–Present

- Built and deployed predictive maintenance models using **Python (scikit-learn) and SQL**, reducing unplanned downtime by **22% for industrial clients over a 3-month monitoring period**.
- Conducted **Exploratory Data Analysis** and fetched data to create real-time performance dashboards with **data visualization tools using AWS S3 and Redshift, leveraging AWS** cloud services for improved performance.
- Collaborated and presented modelling insights and performance dashboards aligning with the technical team product strategy using **Business Model Canvas and Value Proposition frameworks**.

Business Analyst | CSM Digital Technologies | India

Oct. 2021–Aug. 2023

- Designed and implemented BI dashboards with **SQL and Tableau**, enabling **real-time tracking for 10+ education clients**, improving decision-making by **25%**.
- Built and optimized **ETL pipelines** to support **scalable data models**, improving data ingestion speed by **50%** and driving **strategic insights** for institutional decision-makers.
- Partnered with senior stakeholders to define and measure **core learning KPIs**, leading to data-driven improvements in curriculum design and a **25% increase** in student engagement metrics.

Data Analyst | HCL Technologies | India

Feb. 2021–Aug. 2021

- Analyzed **incident management data** from ServiceNow, producing insights that reduced ticket resolution time by **30%**, saving approximately **100 man-hours** monthly.
- Developed custom dashboards and reports using **SQL and Python for data warehousing**, providing business insights to analyze incident trends and optimizing system performance, improving response times by 40%.
- Maintained and monitored **data pipelines** for diagnostics systems, ensuring **99.5% uptime** for key IT infrastructure and reducing critical failure incidents by **12%**.

PROJECT EXPERIENCE

Advanced Data Visualization and Dashboard Development in Tableau

- Defined **10+ interactive dashboards in Tableau** with advanced features such as **LOD expressions, table calculations, and dynamic parameterized views** to derive business insights.
- Integrated **multi-source datasets** (SQL, Excel, JSON) into a **centralized data lake**, reducing reporting delays by **40%** and supporting **real-time analytics**.
- Created reporting dashboards to **track 5+ key performance indicators (KPIs)**, providing actionable insights to stakeholders.

Integrated Data Warehousing System: Talend–Oracle Cloud ETL Implementation

- Organised scalable **data model** for retail organization's **cloud-based data warehouse** using **Oracle Cloud** infrastructure.
- Automated **ETL pipelines in Talend** to increasing data loading performance by **55%**, ensuring **data accuracy and consistency**.
- Integrated with **Tableau dashboards** to deliver **real-time business intelligence**, improving reporting accuracy by **25%**.

SKILLS

Languages — Python, SQL, C++, R — **Frameworks** — PyTorch, TensorFlow, Scikit-learn, Spark, Hadoop, EMR , Agile Methodologies, Scrum — **Libraries** — Numpy, Pandas, Keras, Matplotlib, scikit-learn — **Databases** — Redshift, Oracle, MySQL, PostgreSQL, NoSQL — **Tools** — Git, Azure, DevOps, AWS — **Technologies** — Tableau, Microsoft Office (Excel, PowerPoint), Power BI, Snowflake, Big Query, AWS, Athena

LICENSES & CERTIFICATIONS

Google Cloud Data Analyst, Google

Jan. 2025

Academy Accreditation - Databricks Fundamentals, Databricks

Issued Oct. 2024

Build a Data Warehouse with BigQuery, Google

Oct. 2024
